

Code of Exchange and Market Identification (MIC Code): ISO 10383

MIC Code is the market code specifying a universal method of identifying exchanges, trading platforms and regulated or non-regulated markets as sources of prices and related information in order to facilitate automated processing. ISO have appointed [SWIFT](#) as the Registration Authority for ISO 10383.

The code consists of 4 digits. A few examples of MIC Code are following.

- ☒ XAMM (Amman Stock Exchange - Jordan, Amman)
- ☒ XCAS (Casablanca Stock Exchange – Morocco, Casablanca)
- ☒ XJSE (JSE Securities Exchange – South Africa, Johannesburg)
- ☒ XCAI (Egyptian Exchange – Egypt, Cairo)

In present, there are 6 exchange markets in Thailand including

1. AFET: The Agricultural Futures Exchanges of Thailand
2. BEEX: The Bond Electronic Exchange
3. TFEX: The Thailand Futures Exchange
4. XBKF: The Stock Exchange of Thailand – Foreign Board
5. XBKK: The Stock Exchange of Thailand
6. XMAI: The Market for Alternative Investment

MIC Codes are updated on a monthly basis and available at <http://www.anna-web.com/index.php/home/micaiso10383>
